Anny Blatt's advice

To ensure a perfect success, don't forget to knit your tension square.

Cast on 10 stitches more and knit 6 or 8 rows more than the number given in the instructions for the tension square.

Compare the number of stitches and rows which you have obtained to 10 cm or 4 in square, with those given in the instructions.

- ◆ if there are too few stitches and rows to 10 cm or 4 in square, you are knitting too loosely, use a smaller size needles.
- ◆ if there are too many stitches and rows to 10 cm or 4 in square, you are knitting too tightly, use a larger size needles.
- ◆ if your tension square matches ours, you can begin following the instructions.

Warning to first readers: these sweaters are made exclusively for and with Anny Blatt yarns. Any substitution will definitively affect the overall appearance and feel of the garment.

JACQUARD PAT: Read charts from right to left on RS rows and from left to right on WS rows. use a separate ball for each block of color. to avoid holes in work when changing colors, twist yarns on WS. At every color change, make 1st row a K row on RS or P row on WS (to prevent color from previous row from showing through).

DIRECTIONS BEFORE ASSEMBLY

Pin down pattern pieces to fit size template (actual size), cover with a clean damp cloth (except garments in Mohair, Stretch'Anny and Angora) and leave in place until both the cloth and the fabric are dry.

Use finer yarn or matching embroidery thread to sew up your garment.

Match center of bound-off edge of sleeve cap to shoulder seam when sewing on sleeves.

Lightly press the seams of your finished garment from the wrong side with a cool or warm iron.

Carefully follow recommended washing instructions (see yarn label symbols).
